Ardan International Wealth Platform

INTRODUCING THE FIRST FULL-SERVICE INDEPENDENT WEALTH PLATFORM

designed exclusively for International Professional Advisers

This brochure is intended for institutional and professional intermediaries only. It is not intended for private customers.

We are dedicated to empowering international financial advisors like you to create value in your business.

We will deliver this by:

Enabling you to deliver the best solution for your clients

Truly open architecture investment universe

Putting you at the centre of your client's financial affairs

Your brand and service to the fore

Securing your revenue

Single source for commissions, paid monthly and reconcilable

Making your business more efficient

Spend more time with clients and less on administration

Giving you control across your business

Ensure consistency and compliance across your business
Creating value in your business
Auditable revenues, client assets and client relationships

We are a team with expertise in the international advisor and platform markets

We are committed to build a business that is unique and dedicated to the needs of financial advisers.

About Us

Here are five things you should know about us:

We will only be successful if we consistently deliver excellent service to our advisers and their clients.

We will listen to our advisers and with them will develop our service.

Our sole focus is Ardan International and our commitment to our business is our commitment to yours.

We are part of the Rowan Dartington Group an established UK private client wealth manager. We draw on their extensive experience and market insight for our advisers benefit.

Our logo is a Rowan Tree to reflect the solid base they provide to our business.

5

We are licenced by the Isle of Man Financial Supervision Commission to arrange deals and provide custody to client assets.

Every platform needs a stable base

Strength and stability are essential elements of every platform, that is why Ardan International Limited chose the Isle of Man as the base for its operations.

The Isle of Man is a politically stable, financially strong, independent and well respected offshore finance centre with excellent trade links with the UK, EU and OECD with a AA+ credit rating (S&P).

The Isle of Man financial services industry from its inception around 30 years ago has won major awards year after year. For example, it has been "Best International Financial Services Centre" in each of the past 6 years.

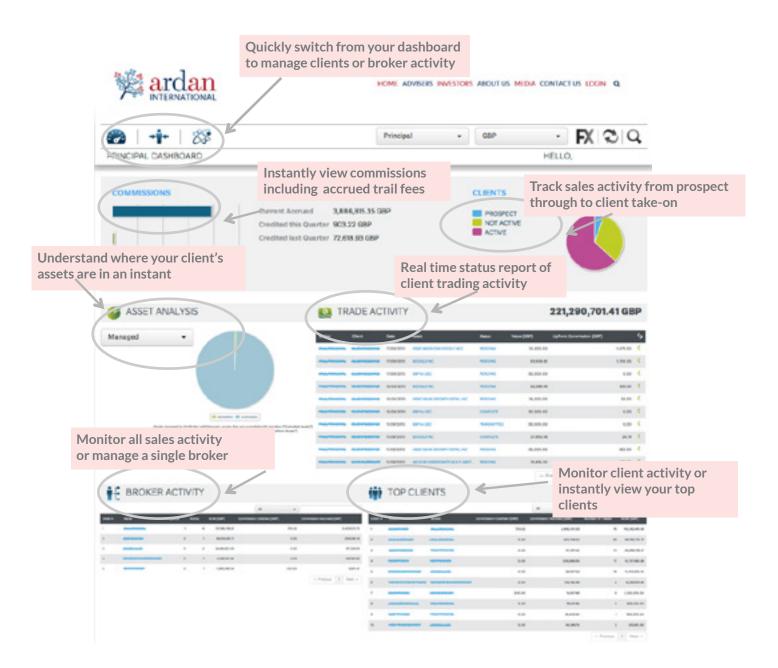

We believe that early adopters of the platform model will benefit from a stable base from which to grow, develop and increase their market share.

Work smarter not harder

We've worked hard to deliver a worldclass Wealth Platform designed from the outset for the additional complexity of the international financial services market.

Nobody knows your business like you do, which is why we built our platform to be flexible enough to allow you to choose the services that will compliment and enhance your existing client offering, with the added benefits of being able to manage broker activity and accurately forecast revenue.

Let us show you how.

Moving to a platform based model can simplify your business and increase your profitability.

We will help you to maximise the benefits to your business by showing you how to integrate the platform into your business. We will work with you to customise the platform if required, we will train your staff and if you need it, we will provide continuous support going forward.
