Investment Objectives

from which to provide benefits in retirement. Investment restrictions apply (for full details please refer to the Scheme Particulars provided) and under applicable regulations in Malta the trustee must retain ultimate discretion on investment decisions. The following information is required to assist the Trustee in determining the preferred investment strategy. Please tick relevant box: I am very uncomfortable with any risk and accept that my capital may be eroded by inflation. I am prepared to take a small amount of risk to provide for the potential for growth over the medium to longer term. I am comfortable with risk and prepared to take a longer term view. This may mean the overall portfolio value fluctuates over the medium term however provides for the potential for growth over the portfolio over the long term. I am very comfortable with risk and willing to accept volatility in the portfolio value in order to provide for the potential for higher returns over the long term. Members are reminded that past performance shall not necessarily be a guide to future performance and that the value of investments can go down as well as up. The value of investments denominated in foreign currencies may be influenced by changes in exchange rates. **Risk Profile** Please tick the box that applies to you: Risk Category Typical Characteristics **Lower Risk** People in this category are conservative with their investments. They prefer taking a small amount of risk to achieve modest or relatively stable returns. They accept that there may be some short term periods of fluctuation in value. 2 **Lower to Medium Risk** People in this category are relatively cautious with their investments. They want to try to achieve a reasonable return, and are prepared to accept some risk in doing so. Typically these portfolios will exhibit relatively modest yet frequent fluctuations in value. 3 **Medium Risk** People in this category are balanced in their attitude towards risk. They don't seek risky investments but don't avoid them either. They are prepared to accept fluctuations in the value of their investment to try and achieve better long term returns. These portfolios will be subject to frequent and at times significant fluctuations in value. Medium to High Risk People in this category are relatively comfortable with investment risk. They aim for higher long term returns and understand that this can also mean some sustained periods of poorer performance. They are prepared to accept significant fluctuation in value to try and achieve better long term returns. 5 High Risk People in this category are very comfortable with investment risk. They aim for high long term investment returns and do not overly worry about periods of poorer performance in the short to medium term. Ordinarily these portfolios can be subject to the full extent and frequency of stock market fluctuations.

Pension Review Waiver Form

It is recommended that an independent review of the applicant's pension arrangements be carried out by a suitably qualified adviser before any transfer is requested. In the case of transfers from UK Defined ('safeguarded') Benefit Schemes with a Cash Equivalent Transfer Value (CETV) above £30,000, 'Appropriate Independent Advice' (AIA) from a UK FCA regulated and appropriately authorised adviser is required before the transfer can take place.

Applicants should ensure that AIA is received and an AIAS (Compliance Statement) accompanies the existing scheme's transfer documentation. For transfers from UK Defined ('safeguarded') Benefit Schemes with a CETV below £30,000 or for transfers from other types of schemes and where advice has not been taken, applicants must agree to and sign the waiver form below.
