AES International will contact you upon receipt of your valid instruction.

All investment involves risk and no single asset class is low risk in all regards. Therefore, your invested capital and/or positive returns are not guaranteed and you may not get back the amount originally invested. The value of any investment, and any income from it, will change. AES recommends that you only invest what you can afford to lose without it having a material effect on your quality of life, and also hold a fund that is immediately accessible, and equivalent to at least three month's alary in case of an unforeseen emergency. We recommend you speak with a qualified tax adviser before investing, and if you do invest, before withdrawing any funds, to ensure your changing needs are best managed. If you are unsure of how suitable an investment is for you, please seek personal advice from our Financial Practitioners.
